The harassment I have gotten

This is a masterlist of ALL harassment I have gotten, usernames included if needed. I am tired of the harassment and will speak up about it, as I just want to stream and make content but the people who hate me and want me gone are being harsh over no reason. This will be updated as needed because it seems it will not stop. I even have had to hear about others posting about me constantly on their alt accounts which also can be included but I choose not to because it is too much. I have even had to deal with others sending harassment to my riggers and artists all due to working with me.

Not in order, not by date, and not by one person, but by multiple people over my entire existence and accusing me of things I didn't do. I have erased sensitive info.

I have received much worse and couldn’t screenshot due to the severity of them and due to fear. But from now on every harassment I get will be screenshotted and sent here.

All I ask is for others to leave me alone and let me create. I get I have done wrong but I am trying to be on my own and just mind my own but others wont leave me be.

I am tired of being made out to be someone crazy/someone I am not when THIS is what I deal with and much worse. Leave me alone unless you want to be included. Thank you for reading.

victim blaming, lying, and ban evading. this person has been banned on every platform and still chooses to try to interact despite being blacklisted.

Probable spam

Another Episode of Bambi blaming the victims, getting karma and getting herself in problems.
You are not getting harrased by your ex-friends anything, you are harrasing her making docs over strangers and blaming her, you are getting mad at ghosts. And do this every month

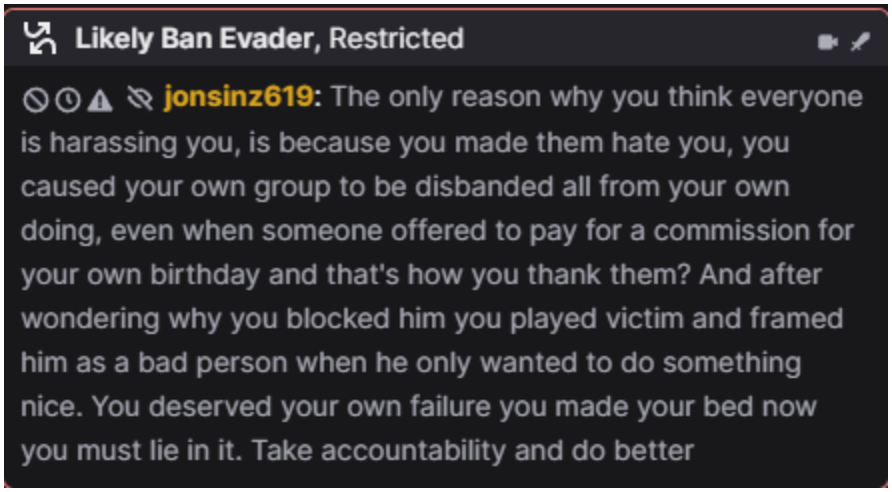
Victim blaming, ban evading, and lying, I never received paid commissioned art from anyone for my bday.



Likely Ban Evader, Restricted
jonsinz619: The only reason why you think everyone is harassing you, is because you made them hate you, you caused your own group to be disbanded all from your own doing, even when someone offered to pay for a commission for your own birthday and that's how you thank them? And after wondering why you blocked him you played victim and framed him as a bad person when he only wanted to do something nice. You deserved your own failure you made your bed now you must lie in it. Take accountability and do better

why are you hiding behind terms like denpa and menhera to soften the fact that you will lash out on people for not engaging with your content girl be SO fr

Dolli @Dollibrattiez · 7/30/25

So it’s okay for you to be a bully but when people bully you it’s bad? Lmao narcissistic behavior is crazy and all you had to do was say sorry for hurting the people who only tried to help you but you couldn’t even do that so now you wanna play victim. I hope you grow up.

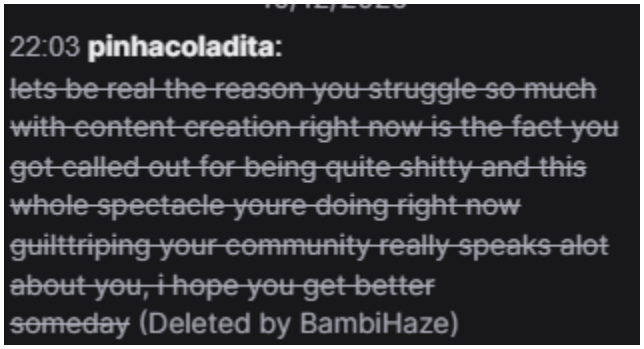
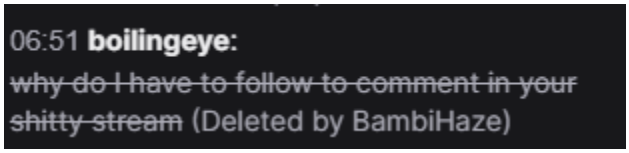
Victim blaming:



22:03 pinhacoladita:
lets be real the reason you struggle so much with content creation right now is the fact you got called out for being quite shitty and this whole spectacle youre doing right now guilttriping your community really speaks alot about you, i hope you get better someday (Deleted by BambiHaze)

More rudeness:



Slurs and more harassment
